Creatinine [0.5-1.2 mg/dL]	.8 mg/dL (07/10/2013 22:25:00 America/Chicago)
Troponin-T [0.00-0.20 ng/mL]	.01 ng/mL (07/10/2013 22:25:00 America/Chicago)

Immunizations

Vaccine	Date	Refusal Reason
influenza virus vaccine, inactivated	07/10/2013	

Procedures

Procedure Type	Body Site	Date of Procedure	Related Diagnosis
Electrocardiographic procedure		07/10/2013 00:00:00 America/Chicago	
Intranasal oxygen therapy		07/10/2013 00:00:00 America/Chicago	

Social History

Social History Type	Response
Smoking Status	Never smoker

Functional Status

FUNCTIONAL

07/10/2013

Functional Status : Dependence on walking stick

COGNITIVE

07/10/2013

Cognitive Status : Memory impairment

Assessment and Plan

Extracted from:

Title: Care Plan (Goals and Instructions)**Author:** Admit MD, Aaron**Date:** 07/10/2013

Goal: stress management surveillance

Instructions: counseling provided during visit

Hospital Discharge Instructions

Discharge Instructions [Education and Patient Visual Aids]

Discharge Instructions (b)(2) (Custom)

You were admitted to Local Community Hospital on 7/10/2013 with a diagnosis of angina. You underwent and electrocardiogram and serial troponins drawn. Both tests were normal and your condition improved. You were discharged from Local Community Hospital on 7/11/2013 with instructions to follow-up with your primary care provider. Should you have any questions prior to

discharge, please contact a member of your healthcare team. If you have left the hospital and have any questions, please contact your primary care physician.

Instructions:

1. Take all medications as prescribed
2. No vigorous exercise
3. If you experience any of the following symptoms, call your primary care physician or return to the emergency room:
 - Chest pain
 - Shortness of breath
 - Dizziness or light-headedness
 - Pain or redness at the site of any previous intravenous catheter
 - Any other unusual symptoms
4. Schedule a follow up appointment with your primary care physician in one week.
